Installation CodeIgniter

The latest is Version 3.1.9

1. Download CodeIgniter From Web www.codeigniter.com
2. *Extract file and copy to xampp/htdocs/*
3. *Test from browser open folder that was copy in htdoc*
4. *If success you will see welcome page*
5. *Yehh you are success install codeingniter 😊*

Welcome CodeIgniter

The latest is Version 3.1.9

Welcome to CodeIgniter!

The page you are looking at is being generated dynamically by CodeIgniter.

If you would like to edit this page you'll find it located at:

```
application/views/welcome_message.php
```

The corresponding controller for this page is found at:

```
application/controllers/Welcome.php
```

If you are exploring CodeIgniter for the very first time, you should start by reading the [User Guide](#).

Page rendered in 0.1027 seconds. CodeIgniter Version 3.1.9

Setting CodeIgniter

The latest is Version 3.1.9

1. Folder ./application/config/config.php

```
26 $config['base_url'] = 'http://localhost/codeigniter/';
```

```
327 $config['encryption_key'] = 'ajkljekajoindkandlknaeuiaheknalkdna';
```

2. Folder ./application/config/database.php

```
78     'hostname' => 'localhost',  
79     'username' => 'root',  
80     'password' => '',  
81     'database' => 'namadatabase',
```

3. Folder ./application/config/

```
61 $autoload['libraries'] = array('database');
```

```
92 $autoload['helper'] = array('url');
```

Controller CodeIgniter

The latest is Version 3.1.9

1. Name the controller and class must Uppercase.

Welcome.php

```
4 class Welcome extends CI_Controller {
```

```
    public function index()  
    {  
        $this->load->view('welcome_message');  
    }
```

2. Public function index(){} is index controller
3. \$this->load->view('welcome_message') this use for load view.

Thank You 😊
See you
